This report summarizes data on the holdings of libraries in California, grouped by nine geographical regions. After a summary of statistics for all types of libraries, statistics are given separately for public, college and university, and special libraries. The following information is given for public libraries: (1) name of library, (2) number of volumes, (3) circulation, (4) interlibrary loans, (5) bookmobiles, (6) service points, (7) professional and non-professional personnel, and (8) population served. The following information is given for college and university libraries: (1) name of college or university, (2) number of volumes, (3) professional and non-professional personnel, (4) number of students enrolled, and (5) public or private status. The following information is given for special libraries: (1) name of library, (2) number of volumes, (3) number of periodical subscriptions, (4) professional and non-professional personnel, and (5) subject specialty. ## ABSTRACT

Part 3 of the final report on Specification of a Mechanized Center for Information Services for a Public Library Reference Center summarizes relevant data on the holdings of libraries throughout the State of California, grouped by the geographical regions of the Martin-Bowler report. Summaries are given by type of library (Public, College and University, and Special) as well as a summary total for all types.

## I. INTRODUCTION

### LIBRARY REGIONS

In order to provide data on which to base planning for mechanized services and networks of libraries, statistics were accumulated and summarized by region of the State. The regions used were those of the Martin-Bowler report, as shown in the following map. They include: Northern Mountains, North Coast, Northern Sacramento Valley, Central Valley, East and South Bay, Lower San Joaquin Valley, Santa Barbara Coast, Greater Los Angeles, and Greater San Diego.

The following two charts summarize demographic data for each region -- total population (in 1960 and 1966) and employment by type of industry during 1965.

## MAJOR RESOURCES

Certain libraries constitute "major resources"--because of their size or their pre-eminence in a specialized subject. The following is a list of those which seem especially significant.

The criteria for inclusion in this list are: for public libraries, at least 1,000,000 volumes or more than 1/3 of the region's total public library resources; for college and university libraries, 1,000,000 volumes or more; for special libraries, 100,000 volumes or more.

### Major Resources Public Libraries

Northern Sacramento Sacramento Public	472,000
Central Valley Stockton-San Joaquin County	540,000
East and South Bay San Francisco	1,045,000
Lower San Joaquin Valley Fresno County	293,000
Santa Barbara Coast Ventura County & City	554,000
Greater Los Angeles Los Angeles Public	3,263,000
Los Angeles County	2,540,000
Greater San Diego San Diego	803,000

### Major Resources University Libraries

East and South Bay Stanford	2,764,000
UC Berkeley	3,179,000
Greater Los Angeles UC Los Angeles	2,333,000
USC	1,192,000

### Major Resources Special Libraries

Northern Sacramento Valley California Library	712,000
East and South Bay California Academy of Science	200,000
Mechanics Institute	164,000
San Francisco Law	216,000
Greater Los Angeles Huntington Library	437,000
